

## ACCUMALUX BG New plant inauguration November 4, 2014

ACCUMALUX BG, Sadovo

November 19, 2014

ACCUMALUX s.a. founded in Luxembourg in 1976 is as ACCUMALUX Group leader in the field of plastic injection molding for automotive and industrial batteries with affiliates in the Czech Republic, Australia, Russia and Bulgaria.

ACCUMALUX Group established its first Bulgarian production site in Asenovgrad in 2008 under the Company name ACCUMALUX BG AD. Since then, the Company has been growing rapidly leading ACCUMALUX BG AD to expand its production facilities.

Thus, ACCUMALUX BG AD started building a new factory with a new production plant in 2013 in Sadovo Municipality (a new hall of approx. 4.100 m<sup>2</sup> and a new administration facility of 550 m<sup>2</sup>). The construction work got finished in July 2014 so that ACCUMALUX BG AD could move its production facilities from Asenovgrad to Sadovo in August 2014.

The new plant's inauguration took place on November 4, 2014.

Mr. Charles-Louis Ackermann, President and Mr. Berthold Kiefer, General Manager of Accumalux Group welcomed Mr. Dimitar Zdravkov, Mayor of Sadovo, Mr. Stefan Stoyanov, Deputy Mayor of Plovdiv, Mr. Tom Jungen, Mayor of Roeser (Luxembourg) and their treasured customers from different countries. They also took the opportunity to kindly thank the architect, different suppliers and employees who really contributed by their full commitment to make the achievement of this project successful.

The Priest of Sadovo also had done the honour of attending this event and blessed the Company. Furthermore, everybody enjoyed dinner together in a typical Bulgarian folk Restaurant in Plovdiv.
